

WORKING STUDENT UI/UX Design (M/F/D)

Application details:

Type of position: working student

Entry date: as of now

Contact: Mustafa Balci, Team Marketing & Communication

Application documents via mail to: bewerbung@inno2grid.com

Are you looking for a great opportunity to finally put your theoretical knowledge into practice and gain your first valuable professional experience in the field of UI/UX design? Perfect, then you've come to the right place! Our small, but highly motivated and dedicated team, which is passionate about developing digital products, is looking for support. With us, you have the opportunity to work independently on exciting projects, contribute your ideas and constantly develop yourself further. Become part of our team and help us design innovative and user-friendly digital products!

Focus activities:

- Support and further development of our digital products such as HEMS, Fleetbook and tendergy
- Collaboration with product managers and developers to translate their requirements into user-friendly UI/UX concepts
- Further development and maintenance of the existing design system and style guides
- Creation of interactive prototypes and wireframes in Figma
- Regular coordination with interdisciplinary teams

Our offer:

- A young, diverse team of ca. 50 employees with flat hierarchies, a goal- and value-oriented mentality and a passion for new things
- A dynamic and secure working environment in a joint venture of DB E.C.O. Group and Schneider Electric, with the prospect of a long term, diversified professional perspective
- A lot of creative freedom and independent action
- Flexible working hours with mobile working

- Personal togetherness at summer parties, team events, joint sports activities or simply lunch on our beautiful EUREF campus
- Free beverages and fresh organic fruit at the office

About you:

- Motivation as a team player to help shape the energy and transportation transition and implement innovative ideas successfully and economically
- Advanced Bachelor's or Master's degree in marketing, media sciences, communication sciences or comparable disciplines (First-year students who have already completed an apprenticeship are also welcome to apply)
- You think “outside the box” and inspire us with your new ideas
- Independent, proactive and structured way of working
- Good analytical and interdisciplinary coordination skills and the ability to develop creative solutions
- Confident handling of MS Office applications (especially PowerPoint, Excel and Word)

Your next step:

You are interested in a diversified job in a young company?

Then we look forward to receiving your application with salary expectations and a possible start date at bewerbung@inno2grid.com!

Why us?

We are a **young team** and enjoy developing and implementation of holistic, customer specific solutions. inno2grid is a joint venture between Deutsche Bahn Engineering & Consulting and Schneider Electric whose development is shaped by its employees.

A position at inno2grid offers a job in an innovative company with a high degree of personal development opportunities, the possibility of self-realization in flat hierarchies and the prospect of a long-term and varied professional perspective. inno2grid relies on personalities who are characterized by entrepreneurial thinking and action, a goal and value-oriented mentality and a passion for new things.

In addition to the outstanding professional qualifications and competence of its employees, inno2grid relies on their above-average initiative and responsibility, teamwork skills and flexibility as well as the willingness and motivation to perform.

Whether at beach volleyball during a break or at a barbecue, it is important to the i2g-Team to spend time together not only in the office, even if it is a particularly beautiful location on the **EUREF campus**.
