

# WORKING STUDENT (F/M/D) IN THE FIELD OF SMART CITY CONSULTING

## Application details:

**Type of position:** part time, Berlin

**Entry date:** as of now

**Contact:** Elias Schneider, Team Smart Cities

**Application documents via mail to:** [bewerbung@inno2grid.com](mailto:bewerbung@inno2grid.com)

The **Smart City Consulting** division advises clients on the strategic development of smart cities and districts. Our clients include local communities, municipal companies and project and urban developers. At inno2grid, we think solutions from the operational perspective and thus create the basis for sustainable added value for citizens, operators and administrators.

Become part of our team and let's tackle our customers' challenges together!

## Focus activities:

- Support in project management in our customer projects
- Support in the moderation of innovation processes and workshops for the development of innovative use cases
- Contributing your technical expertise to consulting projects, e.g. for the development of strategy papers in the context of Smart City
- Research activities and support in the preparation and follow-up of customer meetings
- Support in other parts of inno2grid as required

## Our offer:

- A young, diverse team of 50 employees with flat hierarchies, a results- and value-oriented mentality and a passion for new challenges
- A dynamic and secure working environment in a joint venture of DB E.C.O. Group and Schneider Electric, with the prospect of a long term, diversified professional perspective
- A lot of creative freedom and independent action
- Flexible working hours with mobile working
- Personal togetherness at summer parties, team events, joint sports activities or simply lunch on our beautiful EUREF campus
- Free beverages and fresh organic fruit at the office

## About you:

- Motivation as a team player to help shape cities and municipalities sustainably and implement innovative ideas
- Advanced university degree, preferably with a focus on e.g. digitalisation, (business) informatics, industrial engineering or similar
- Interest and initial experience in the field of smart cities, e.g. in the areas of construction and housing, digital infrastructures, energy, mobility and the environment
- Independent, proactive and structured way of working
- Strong analytical skills and solution-orientated thinking
- High level of commitment and reliability
- Confident handling of MS Office applications (especially PowerPoint, Excel and Word)
- Business fluent in German and English

## Your next step:

You are interested in a diversified job in a young company?

Then we look forward to receiving your application with salary expectations and a possible start date at [bewerbung@inno2grid.com](mailto:bewerbung@inno2grid.com) !

## Why us?

We are a **young team** and enjoy developing and implementation of holistic, customer specific solutions. inno2grid is a joint venture between Deutsche Bahn Engineering & Consulting and Schneider Electric whose development is shaped by its employees.

A position at inno2grid offers a job in an innovative company with a high degree of personal development opportunities, the possibility of self-realization in flat hierarchies and the prospect of a long-term and varied professional perspective. inno2grid relies on personalities who are characterized by entrepreneurial thinking and action, a goal and value-oriented mentality and a passion for new things.

In addition to the outstanding professional qualifications and competence of its employees, inno2grid relies on their above-average initiative and responsibility, teamwork skills and flexibility as well as the willingness and motivation to perform.

Whether at beach volleyball during a break or at a barbecue, it is important to the i2g-Team to spend time together not only in the office, even if it is a particularly beautiful location on the **EUREF campus**.
