

WORKING STUDENT (F/M/D) IN THE FIELD OF CONSULTING FOR ENERGY/TGA

Application details:

Type of position: part time, Berlin

Entry date: as of now

Contact: Christoph Sappa, Consulting Lead Energy

Application documents via mail to: bewerbung@inno2grid.com

Life in urban and rural regions is changing. Structural change is taking place at various levels, which is also increasing the need for a sustainable mobility and energy supply everywhere. Our aim is to help shape the energy and transport transition through innovative energy and mobility concepts. The 'Districts' consulting area therefore focuses on the development of integrated energy and mobility solutions in residential, commercial and mixed neighbourhoods in urban and peripheral areas. We support our clients from the initial idea through to operation.

We see our working students as equal employees and fully integrate them into the daily work processes. We therefore offer a lot of freedom to organise your own work and expect independent and team-oriented commitment.

Focus activities:

You will be responsible for implementation-orientated consulting projects with a focus on sector coupling between the areas of energy and mobility as well as in the area of building energy supply and support our consultants and project managers in the following tasks, for example:

- Carrying out inventory analyses
- Creation of energy supply concepts
- Identification of potential for sector coupling
- Development of operator and marketing models
- Preparation and optimisation of profitability analyses
- Carrying out project-related research
- Preparation of presentations of results
- Carrying out market analyses on current trends, solutions and providers
- Developing methods for the further development of innovative consulting projects

Our offer:

- A young, diverse team of 50 employees with flat hierarchies, a results- and value-oriented mentality and a passion for new challenges
- A dynamic and secure working environment in a joint venture of DB E.C.O. Group and Schneider Electric, with the prospect of a long term, diversified professional perspective
- In addition to company growth, your personal growth is also important to us. You can expect diverse and long-term development and career prospects
- A lot of creative freedom and independent action
- Flexible working hours with mobile working
- Personal togetherness at summer parties, team events, joint sports activities or simply lunch on our beautiful EUREF campus
- Free beverages and fresh organic fruit at the office

About you:

- Advanced Bachelor's or Master's degree in engineering (energy and building services engineering, renewable energies or comparable degree programme with a connection to technical building services) or students with completed technical vocational training
- Enthusiasm for innovative and sustainable solutions for energy supply at building level
- Very good self-organisation, communication and teamwork skills
- High level of commitment and reliability
- Confident handling of MS Office applications (especially PowerPoint, Excel and Word)
- Very good knowledge of German
- Basic knowledge of Hottgenroth simulation software is an advantage, but not a prerequisite

Your next step:

You are interested in a diversified job in a young company?

Then we look forward to receiving your application with salary expectations and a possible start date at bewerbung@inno2grid.com !

Why us?

We are a **young team** and enjoy developing and implementation of holistic, customer specific solutions. inno2grid is a joint venture between Deutsche Bahn Engineering & Consulting and Schneider Electric whose development is shaped by its employees.

A position at inno2grid offers a job in an innovative company with a high degree of personal development opportunities, the possibility of self-realization in flat hierarchies and the prospect of a long-term and varied professional perspective. inno2grid relies on personalities who are characterized by entrepreneurial thinking and action, a goal and value-oriented mentality and a passion for new things.

In addition to the outstanding professional qualifications and competence of its employees, inno2grid relies on their above-average initiative and responsibility, teamwork skills and flexibility as well as the willingness and motivation to perform.

Whether at beach volleyball during a break or at a barbecue, it is important to the i2g-Team to spend time together not only in the office, even if it is a particularly beautiful location on the **EUREF campus**.
