

# (JUNIOR) SUSTAINABILITY CONSULTANT IN THE FIELD

## CORPORATE MOBILITY (M/F/D)

### Application details:

**Position type:** full time

**Entry date:** as soon as possible

**Contact person:** Timo Simmat, Team Sustainable Corporate Mobility

**Application documents per mail to:** [bewerbung@inno2grid.com](mailto:bewerbung@inno2grid.com)

Against the background of a rationally required sustainability on an ecological, economic and social level, mobility in particular is undergoing a transformation. On the one hand, electromobility is becoming very important. On the other hand, the formerly possession-oriented mobility is developing into a demand-oriented mobility. This is expressed in the constantly growing range of new mobility services and the ever more interconnected intermodal mobility.

Companies, too, must face up to the new requirements in order to make their contribution to the energy and mobility transition. They also have to meet the changing mobility needs of their employees.

We accompany our customers on their way to more sustainable corporate mobility and offer a holistic solution approach from consulting to implementation and operation.

### Your responsibilities:

- Processing of customer projects with the aim of a sustainable transformation of **corporate mobility**
- Developing sustainability strategies with the aim of reducing emissions and achieving ESG goals in accordance with the SBTi
- Carrying out requirement and potential analyses for needs-based mobility offers and identification of CO<sub>2</sub> reduction potentials

- Development and application of quantifiable **sustainability KPIs to measure the success** of measures introduced in companies
- Carrying out economic feasibility studies and preparing meaningful decision documents
- Preparation, support and follow-up of workshop moderations, presentations and working meetings
- Ensuring that customer projects are processed on schedule and in accordance with quality standards
- Cross-team collaboration with the aim of optimising internal processes and digital products in the field of sustainable corporate mobility
- Accompanying and carrying out sales activities, e.g. conducting initial meetings, preparing offers, customer presentations and processing tenders

### What you bring:

- Motivation as a **team player** to shape mobility sustainably and implement innovative ideas
- Successfully completed university degree (Bachelor's or Master's) in an economic or technical field, preferably with a focus on sustainability management, industrial engineering, mobility / transport planning or similar
- Ideally, first professional experience in the above-mentioned areas of responsibility
- In-depth knowledge of SBTi, GHG Protocol, ESG targets, CO<sub>2</sub> accounting, Scope 1-3 emission reporting
- Technical and methodological knowledge in the areas of **electromobility, operational mobility, innovative mobility offers** desirable
- Knowledge and experience in the field of charging infrastructure and electric vehicles desirable
- High level of initiative and commitment as well as enjoyment of working in a team
- Business fluent in German and English

- Confident handling of MS Office applications (especially PowerPoint, Excel and Word)

## **inno2grid as an employer:**

**We at inno2grid** have **implementation and operation experience** in the implementation of energy and mobility systems and transform results from numerous projects at the interface **between energy, mobility and IT** into new business areas for our customers.

We master the interfaces to energy systems, charging infrastructure and IT platforms and operate the unique **Micro Smart Grid** at our company headquarters on the EUREF campus in Berlin.

We are constantly seeking **challenges** and continuously integrate **new innovations** into our consulting and product development business.

## **Our offer:**

We **focus on our employees**, because they are the company's greatest asset. We love diversity and are an **international and interdisciplinary young team**.

A job at inno2grid offers you a varied activity in an innovative company with a high degree of **personal development potential**, the opportunity for self-fulfilment in **flat hierarchies** and the prospect of a **long-term professional perspective**. You can expect a team with a **high level of motivation** and **passion for new ideas** and solutions as well as a **value-oriented mentality**. In addition to their professional qualifications and competence, colleagues are characterised by their **above-average initiative** and responsibility and appreciate their flexibility.

Whether on the beach volleyball court during the break or at a barbecue, it is important to the i2g team to spend time together not only in the office, even if it is in a particularly beautiful location on the **EUREF campus**.
