

WORKING STUDENT IN THE FIELD OF SMART CITY / ENERGY / E-MOBILITY (F/M/D)

Application details:

Type of position: part time, Berlin

Entry date: as soon as possible

Contact: Elias Schneider, Team Smart City

Application documents via mail to: bewerbung@inno2grid.com

The **Smart City** team is a driver of the digitalization of infrastructures for energy and mobility in cities, municipalities and projects beyond the district scale. The focus is on implementing intelligent smart city infrastructures in use cases that reduce the ecological footprint using data and improve communication between citizens, administrations and business. The result is a sustainable, citizen-oriented and future-proof city. The team's solution-oriented approach supports this goal and functions to overcome the challenges of today and tomorrow. Due to the high degree of interdisciplinarity in the team, a holistic view of the problem is achieved, which pays off in the sustainability of the solutions developed.

Would you like to bring in your consulting talent and your enjoyment of customer contact and contribute to the energy and transport transformation? Then join our team and let's tackle the challenges of our customers together!

Focus activities:

- Support of innovative **smart city** projects
- Participation in creating digitalization-, energy and mobility concepts for cities, municipalities and city districts
- Participating in interdisciplinary projects, e.g., in the digitalization of mobility and energy infrastructure
- Independent processing of tasks in customer or internal projects
- Support in sales activities, e.g., trade fair appearances, offer preparations, customer presentations and tender offers
- Support workshops in the field of smart city, energy and mobility

Our offer:

- A young, diverse team of ca. 60 employees with flat hierarchies, a goal- and value-oriented mentality and a passion for new things
- A dynamic and secure working environment in a joint venture of DB E.C.O. Group and Schneider Electric, with the prospect of a long term, diversified professional perspective
- A lot of creative freedom and personal responsibility in the way you work
- Flexible working hours with the possibility of mobile working
- Personal togetherness at summer parties, team events, joint sports activities or simply lunch on our beautiful EUREF campus
- Benefits such as job ticket and JobRad, pool electric vehicle, mobility budget, company pension plan, fresh organic fruit in the office etc.

About you:

- Advanced bachelor or master studies in the field of industrial engineering, engineering (construction, energy, transport), business administration, economics. Ideally with a focus on energy sector. Beginning students who have already completed an apprenticeship are also invited to apply!
- Enjoyment of new and networked thinking of conventional solutions and planning processes in the energy and mobility market or projects in the digitalization of cities and municipalities
- You enjoy self-organization, communication and teamwork skills
- You bring a high level of commitment and reliability
- Confident handling of MS Office applications
- Fluent written and spoken German and English language skills

Your next step:

You are interested in a diversified job in a young company?

Then we look forward to receiving your application with salary expectations and a possible start date at bewerbung@inno2grid.com!

Why us?

We are a **young team** and enjoy developing and implementation of holistic, customer specific solutions. inno2grid is a joint venture between Deutsche Bahn Engineering & Consulting and Schneider Electric whose development is shaped by its employees.

A position at inno2grid offers a job in an innovative company with a high degree of personal development opportunities, the possibility of self-realization in flat hierarchies and the prospect of a long-term and varied professional perspective. inno2grid relies on personalities

who are characterized by entrepreneurial thinking and action, a goal and value-oriented mentality and a passion for new things.

In addition to the outstanding professional qualifications and competence of its employees, inno2grid relies on their above-average initiative and responsibility, teamwork skills and flexibility as well as the willingness and motivation to perform.

Whether at beach volleyball during a break or at a barbecue, it is important to the i2g-Team to spend time together not only in the office, even if it is a particularly beautiful location on the **EUREF campus**.
