

# PROJECTMANAGER IN THE FIELD OF DIGITALISATION, ENERGY AND MOBILITY (F/M/D)

## Application details:

**Type of position:** full time, Berlin

**Entry date:** as soon as possible

**Contact:** Elias Schneider, Team Smart City

**Application documents via mail to:** [bewerbung@inno2grid.com](mailto:bewerbung@inno2grid.com)

The **Smart City** team is a driver of the digitalization of infrastructures for energy and mobility in cities, municipalities and projects beyond the district scale. The focus is on implementing intelligent smart city infrastructures in use cases that reduce the ecological footprint using data and improve communication between citizens, administration and business. The result is a sustainable, citizen-oriented and future-proof city. The team's solution-oriented approach supports this goal and works to overcome the challenges of today and tomorrow. Due to the high degree of interdisciplinarity in the team, a holistic view of the problem is achieved, which pays off in the sustainability of the solutions developed.

Would you like to bring in your consulting talent and your enjoyment of customer contact and contribute to the energy and transport transformation? Then join our team and let's tackle the challenges of our customers together!

## Focus activities:

- Planning and support of customer projects in the field of digitalization of sustainable energy and mobility supply in urban and rural areas
- Perform requirement and potential analyses
- Perform economic feasibility studies and preparing informative decision-making documents
- Project planning of inno2grid activities and monitoring of the implementation strategy
- Evaluating and researching new innovative solutions and take over projects
- Design of communication and cooperation with clients, partners and shareholders
- Agile cooperation with our consultants in a changing innovative work environment
- Preparation, conducting and follow-up workshops, presentations and work sessions
- Support of sales activities e.g., preparation of offers, customer presentations and processing of tenders
- Support in the tasks of the management board

- 
- Coordinating and discussing product ideas and requirements with your project team and company-wide communities

### **Our offer:**

- A young, diverse team of approx. 60 employees with flat hierarchies, a goal- and value-oriented mindset and a passion for new trying things
- A dynamic and secure working environment in a joint venture of DB E.C.O. Group and Schneider Electric, with the prospect of a long term, diversified professional perspective
- A lot of creative freedom and personal responsibility in the way you want to work
- Flexible working hours with the possibility of mobile working
- Real life at summer parties, team events, joint sports activities or simply lunch on our beautiful EUREF campus
- Benefits such as job ticket and JobRad, electric pool vehicle, mobility budget, company pension plan, fresh organic fruit in the office etc.

### **About you:**

- A degree in the field of business administration, industrial engineering, business informatics or a comparable degree program, also with a focus on innovation management or project management
- Initial professional experience in project management
- Knowledge of digitisation, transport or energy management
- Independent, proactive and structured way of working as well as interdisciplinary team skills
- Strong communication skills, customer-oriented thinking and basic technical understanding (smart city, energy or mobility)
- High level of commitment, reliability and ability for self-organisation
- Confident handling of MS Office, especially PowerPoint, Excel, Word, digital whiteboards (e.g. miro) and project management-tools (e.g. asana)
- Fluent written and spoken German and English language skills

### **Your next step:**

You are interested in a diversified job in a young company?

Then we look forward to receiving your application with salary expectations and a possible entry date at [bewerbung@inno2grid.com](mailto:bewerbung@inno2grid.com)!

## Why us?

We are a **young team** and enjoy developing and implementation of holistic, customer specific solutions. inno2grid is a joint venture between Deutsche Bahn Engineering & Consulting and Schneider Electric whose development is shaped by its employees.

A position at inno2grid offers a job in an innovative company with a high degree of personal development opportunities, the possibility of self-realization in flat hierarchies and the prospect of a long-term and varied professional perspective. inno2grid relies on personalities

who are characterized by entrepreneurial thinking and action, a goal and value-oriented mentality and a passion for new things.

In addition to the outstanding professional qualifications and competence of its employees, inno2grid relies on their above-average initiative and responsibility, teamwork skills and flexibility as well as the willingness and motivation to perform.

Whether at beach volleyball during a break or at a barbecue, it is important to the i2g-Team to spend time together not only in the office, even if it is a particularly beautiful location on the **EUREF campus**.
