

(JUNIOR) CONSULTANT IN THE FIELD OF NEW MOBILITY (F/M/D)

Application details:

Type of position: full time, part time

Entry date: January 2023

Contact: Thomas Kreher, Team Quarters

Application documents via mail to: bewerbung@inno2grid.com

Life in urban and rural areas is changing continuously. Structural change is taking place at various levels, and with it the need for a sustainable mobility and energy supply is growing. We are pursuing the goal of helping to shape the energy and transport transition through innovative energy and mobility concepts. In the team **Quarters**, we deal with the development of integrated energy and mobility solutions in residential and commercial neighborhoods in urban areas. We accompany our clients from the idea to the implementation and operation. To strengthen our team, we are looking for new colleagues who want to shape future neighborhood development together with us.

You would like to contribute your consulting talent in one of the most promising industries of the future and make a contribution to the energy and transport transformation? Then join our team and let's tackle the challenges of our customers together!

Focus activities:

- Processing and/or management of projects with the aim of a sustainable transformation of mobility in residential and commercial quarters
- Carrying out requirements and potential analyses for needs-based mobility services in neighborhoods
- Dimensioning and location of mobility offers and preparation of decision templates
- Preparation, support and follow-up of workshop moderations, presentations and meetings
- Ensuring that customer projects are processed on schedule and in accordance with quality standards
- Cross-team collaboration with the goal of optimizing internal processes and digital products in the area of new mobility
- Accompanying and carrying out sales activities e.g. conducting initial meetings, preparing quotations, customer presentations and processing tenders

Our offer:

- A young, diverse team of ca. 60 employees with flat hierarchies, a goal- and value-oriented mentality and a passion for new things
- A dynamic and secure working environment in a joint venture of DB E.C.O. Group and Schneider Electric, with the prospect of a long term, diversified professional perspective
- A lot of creative freedom and independent action
- Flexible working hours with mobile working
- Personal togetherness at summer parties, team events, joint sports activities or simply lunch on our beautiful EUREF campus
- Benefits such as job ticket and JobRad, pool electric vehicle, mobility budget, company pension plan, fresh organic fruit in the office etc.

About you:

- Motivation as a team player to make mobility sustainable and implement innovative ideas
- Successfully completed university degree (Bachelor's or Master's) in a transportation or geographic field, preferably with a focus on spatial/urban planning, mobility/transportation planning, civil engineering, industrial engineering, (sustainability) management or similar
- Professional experience in the above-mentioned areas
- Prior knowledge of building law and HOAI, in particular dealing with parking space regulations would be of advantage
- Technical and methodological knowledge in the areas of innovative mobility offers, electromobility and operational mobility management
- Strong knowledge and experience in the field of GIS
- High level of initiative and commitment as well as enjoyment of working in a team
- Good knowledge of MS Office applications (especially PowerPoint, Excel and Word)
- Fluent written and spoken German and English language skills

Your next step:

You are interested in a diversified job in a young company?

Then we look forward to receiving your application with salary expectations and a possible start date at bewerbung@inno2grid.com!

Why us?

We are a **young team** and enjoy developing and implementation of holistic, customer specific solutions. inno2grid is a joint venture between Deutsche Bahn Engineering & Consulting and Schneider Electric whose development is shaped by its employees.

A position at inno2grid offers a job in an innovative company with a high degree of personal development opportunities, the possibility of self-realization in flat hierarchies and the prospect of a long-term and varied professional perspective. inno2grid relies on personalities who are characterized by entrepreneurial thinking and action, a goal and value-oriented mentality and a passion for new things.

In addition to the outstanding professional qualifications and competence of its employees, inno2grid relies on their above-average initiative and responsibility, teamwork skills and flexibility as well as the willingness and motivation to perform.

Whether at beach volleyball during a break or at a barbecue, it is important to the i2g-Team to spend time together not only in the office, even if it is a particularly beautiful location on the **EUREF campus**.
