

Working Student (m/f/d) Consulting for Energy/TGA

Application details

Type of position: part time, Berlin

Entry date: as of now

Contact: Thomas Kreher, Team Quartiere

Application documents via mail to: bewerbung@inno2grid.com

Life in urban and rural regions is changing. Structural change is taking place at various levels, which is also increasing the need for sustainable mobility and energy supply everywhere. Our goal is to help shape the energy and transportation transition through innovative energy and mobility concepts. The consulting area "Quartiere" therefore deals with the development of integrated energy and mobility solutions in residential, commercial and mixed neighborhoods in urban and peripheral areas. We support our customers from the initial idea through to operation.

We see our working students as equal employees and fully integrate them into the daily work processes. We therefore offer a great deal of freedom to shape your own work and expect independent and team-oriented commitment in return.

Focus activities

You will work independently on implementation-oriented consulting projects with a focus on sector coupling between the areas of energy and mobility as well as in the area of building energy supply and support our consultants and project managers, for example, in the following tasks:

- Realization of status analyses
- Creation of energy supply concepts
- Identification of potentials for sector coupling
- Development of operator and marketing models
- Preparation and optimization of profitability analyses
- Carrying out project-related research
- Preparation of result presentations
- Carrying out market analyses on current trends, solutions and providers
- Development of methods for the advancement of innovative consulting projects

Our offer

- A young, diverse team of approx.70 employees with flat hierarchies, a goal- and value-oriented mentality and a passion for new things
- A dynamic and secure working environment in a joint venture between the DB E.C.O. Group and Schneider Electric, with the prospect of a long-term, varied professional perspective
- In addition to the company's growth, your personal growth is also important to us. You can expect diverse and long-term development and career prospects
- A great deal of creative freedom and personal responsibility in the way you work
- Flexible working hours with the possibility of mobile working
- Personal interaction at summer parties, team events, joint sports activities or simply over lunch on our beautiful EUREF campus.

About you

- Advanced bachelor's or master's degree in the field of engineering (energy and building technology, regenerative energies or comparable course of study with a connection to technical building equipment) or beginning student with completed technical vocational training
- Enthusiasm for innovative and sustainable solutions for energy supply on building level
- Very good self-organization, communication and team skills
- High level of commitment and reliability
- Confident handling of MS Office applications (especially PowerPoint, Excel and Word)
- Very good knowledge of German

inno2grid as an employer

We are a **young team** and enjoy developing and implementation of holistic, customer specific solutions. inno2grid is a joint venture between Deutsche Bahn Engineering & Consulting and Schneider Electric whose development is shaped by its employees.

A position at inno2grid offers a job in an innovative company with a high degree of personal development opportunities, the possibility of self-realization in flat hierarchies and the prospect of a long-term and varied professional perspective. inno2grid relies on personalities who are characterized by entrepreneurial thinking and action, a goal and value-oriented mentality and a passion for new things.

In addition to the outstanding professional qualifications and competence of its employees, inno2grid relies on their above-average initiative and responsibility, teamwork skills and flexibility as well as the willingness and motivation to perform.

Whether at beach volleyball during a break or at a barbecue, it is important to the i2g-Team to spend time together not only in the office, even if it is a particularly beautiful location on the **EUREF campus**.

You are interested in a diversified job in a young company?

Then we look forward to receiving your application with salary expectations and a possible entry date at bewerbung@inno2grid.com!
