

Workingstudent (m/f/d) Consulting for Business Development & Project Management

Application Details

Job Type: Part-time, Berlin

Start Date: Immediately

Contact Person: Christoph Sappa

Application documents via E-Mail to: bewerbung@inno2rid.com

Life in urban and rural regions is changing. Structural transformation is taking place on different levels, increasing the need for sustainable mobility and energy supply everywhere. In one of our four consulting fields, we offer consulting services for residential, commercial, and mixed-use areas in urban and rural areas. We support developers in their strategic alignment, design sustainable infrastructures, and accompany them in implementing specific measures. On the other hand, we focus on developing product solutions for new market segments and building a sales pipeline for our industrial customers. Furthermore, we assist our clients from ideation to operational management with project management services.

We consider our student workers as equal team members and fully integrate them into daily work processes. Therefore, we offer a lot of freedom for personal initiative and expect independent and team-oriented commitment in return.

Focus activities

You will autonomously take on tasks in implementation-oriented and generalist consulting projects with a focus on business development and project management. Additionally, you will support our consultants and project managers with tasks such as:

- Assisting in consulting in business development projects and in the conception of potential outreach strategies
- Identifying significant pain points of customer groups and co-developing suitable solutions
- Managing various stakeholders in projects
- Developing operator and marketing models
- Creating and optimizing profitability analyses
- Conducting market analyses on current trends, solutions, and providers as well as research for lead generation
- Creating result presentations

Our Offer

- A young, diverse team of approximately 70 employees with flat hierarchies, goal- and value-oriented mentality, and passion for innovation
- A dynamic and secure working environment in a joint venture of DB E.C.O. Group and Schneider Electric, with prospects for a long-term, diverse career perspective
- Besides company growth, we also care about your personal growth. You can expect diverse and long-term development and career perspectives.
- Plenty of freedom for shaping your work and taking personal responsibility
- Flexible working hours with the possibility of remote work
- Personal interaction at summer festivals, team events, shared sports activities, or simply lunch at our beautiful EUREF campus

About you

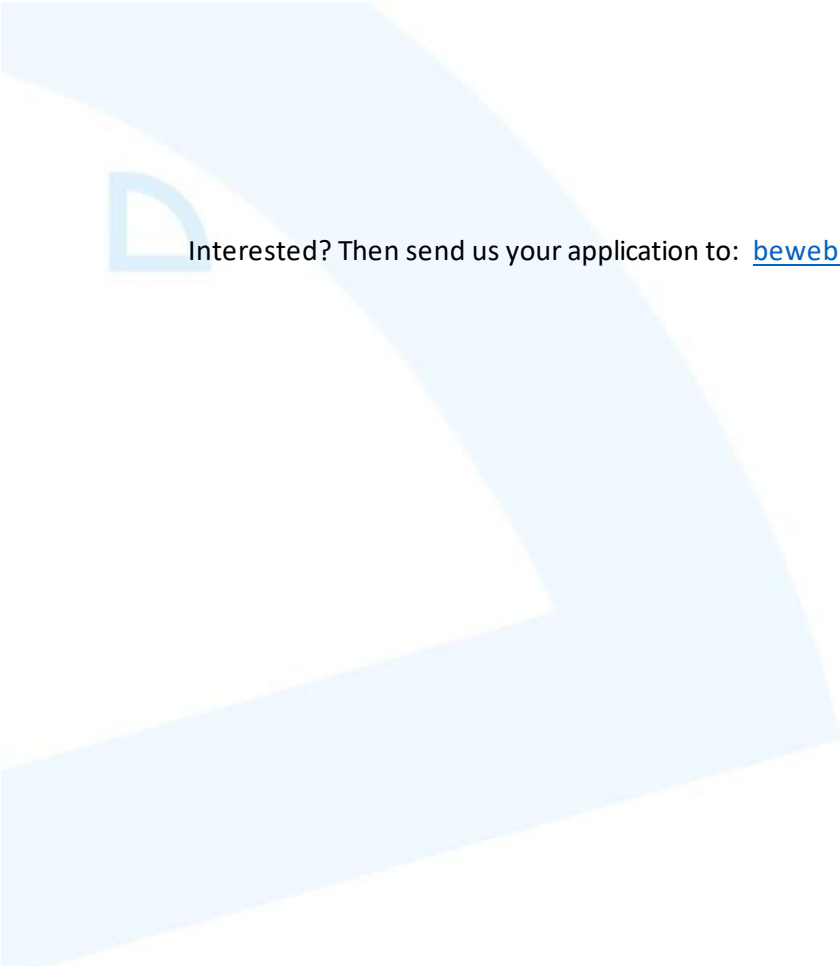

- Advanced bachelor's or master's degree in business engineering or business administration
- Analytical skills and interest in sustainable energy generation
- Understanding of basic business principles and project management methods
- Excellent self-organization, communication, and teamwork skills
- High level of commitment and reliability
- Proficient in MS Office applications (especially PowerPoint, Excel, and Word)
- Excellent German language skills

inno2grid as an employer

We are a **young team** with a passion for developing and implementing holistic, customer-specific solutions. Inno2grid is a joint venture of DB E.C.O. and Schneider Electric, shaped by its employees' development.

Employment at inno2grid offers working in an innovative company with high personal development opportunities, the chance for self-realization in flat hierarchies, and prospects for a long-term and diverse career. Inno2grid relies on individuals who demonstrate entrepreneurial thinking and action, goal- and value-oriented mentality, and passion for innovation. In addition to the outstanding professional qualifications and competencies of its employees, inno2grid depends on their above-average initiative and responsibility, teamwork and flexibility, willingness to perform, and ability to motivate.

Whether on the beach volleyball court during breaks or at a barbecue, the i2g team values spending time together not only in the office, even though it is particularly beautifully located on the **EUREF Campus**.
