

WORKING STUDENT (F/M/D) CONSULTING FOR MOBILITY AND DISTRICT DEVELOPMENT

Application details:

Type of position: part time, Berlin

Entry date: as of now

Contact: Thomas Kreher, Team Quartiere

Application documents via mail to: bewerbung@inno2grid.com

Life in urban and rural regions is changing. Structural change is taking place at various levels, which is also increasing the need for sustainable mobility and energy supply everywhere. Our goal is to help shape the energy and transportation transition through innovative energy and mobility concepts. The consulting area "Quartiere" therefore deals with the development of integrated energy and mobility solutions in residential, commercial and mixed neighborhoods in urban and peripheral areas. We support our customers from the initial idea through to operation.

We see our working students as equal employees and fully integrate them into the daily work processes. We therefore offer a great deal of freedom to shape your own work and expect independent and team-oriented commitment in return.

Focus activities:

You will be responsible for implementation-oriented consulting projects with a focus on sector coupling between the areas of energy and mobility as well as the interfaces to digitization and support our consultants and project managers in the following tasks, for example:

- Contributing to the creation of integrated mobility concepts
- Carrying out inventory and location analyses in the mobility context
- Develop operator and marketing models
- Creating and optimizing profitability analyses
- Carry out project-related research
- Creating presentations of results
- Carry out market analyses on trends, solutions and providers
- Preparing cost and location planning for mobility hubs
- Participating in interdisciplinary projects, e.g. energy and charging infrastructure concepts

Our offer:

- A young, diverse team of 50 employees with flat hierarchies, a results- and value-oriented mentality and a passion for new challenges
- A dynamic and secure working environment in a joint venture of DB E.C.O. Group and Schneider Electric, with the prospect of a long term, diversified professional perspective
- A lot of creative freedom and independent action
- Flexible working hours with mobile working
- Personal togetherness at summer parties, team events, joint sports activities or simply lunch on our beautiful EUREF campus
- Free beverages and fresh organic fruit at the office

About you:

- Advanced bachelor's or master's degree in the field of industrial engineering, engineering (civil engineering, transportation), architecture, urban and regional planning or beginning student with completed technical vocational training
- Enthusiasm for innovative and sustainable solutions for the mobility and energy industry
- Confident handling of MS Office applications (especially PowerPoint, Excel and Word)
- GIS and CAD skills would be a benefit
- Very good self-organization, communication and team skills
- High level of commitment and reliability
- Very good knowledge of German and English

Your next step:

You are interested in a diversified job in a young company?

Then we look forward to receiving your application with salary expectations and a possible start date at bewerbung@inno2grid.com !

Why us?

We are a **young team** and enjoy developing and implementation of holistic, customer specific solutions. inno2grid is a joint venture between Deutsche Bahn Engineering & Consulting and Schneider Electric whose development is shaped by its employees.

A position at inno2grid offers a job in an innovative company with a high degree of personal development opportunities, the possibility of self-realization in flat hierarchies and the prospect of a long-term and varied professional perspective. inno2grid relies on personalities who are characterized by entrepreneurial thinking and action, a goal and value-oriented mentality and a passion for new things.

In addition to the outstanding professional qualifications and competence of its employees, inno2grid relies on their above-average initiative and responsibility, teamwork skills and flexibility as well as the willingness and motivation to perform.

Whether at beach volleyball during a break or at a barbecue, it is important to the i2g-Team to spend time together not only in the office, even if it is a particularly beautiful location on the **EUREF campus**.
