

# WORKING STUDENT (F/M/D) IN THE FIELD OF SMART CITY / ENERGY / ELECTROMOBILITY

## Application details:

**Type of position:** part time, Berlin

**Entry date:** as of march 2024

**Contact:** Elias Schneider, Team Smart Cities

**Application documents via mail to:** [bewerbung@inno2grid.com](mailto:bewerbung@inno2grid.com)

The Smart City team drives the digitalization of infrastructures for energy and mobility in cities, municipalities and projects beyond the neighbourhood scale. The focus is on implementing intelligent smart city infrastructures in use cases that use data to reduce the ecological footprint and improve communication between citizens, administration and business. The result is a sustainable, citizen-oriented and future-proof city. The team's solution-oriented approach supports this vision and works to overcome the challenges of today and tomorrow. Thanks to the high degree of interdisciplinarity in the team, a holistic view of the problem is achieved, which contributes to the sustainability of the solutions developed.

Would you like to bring your consulting talent and your enjoyment of customer contact to us and make a contribution to the energy and transportation transition? Then join our team and let's tackle our customers' challenges together!

## Focus activities:

- Support for innovative smart city projects
- Development and design of smart city use cases
- Participation in the creation of digitalization, energy & mobility concepts for cities, municipalities and urban districts
- Participation in interdisciplinary projects, e.g. in the digitalization of mobility and energy infrastructures
- Independent processing of tasks in customer or internal projects
- Support in sales activities, including proposal preparation, customer presentations and tenders
- Support in workshops on the topics of smart city, energy and mobility

## Our offer:

- A young, diverse team of 50 employees with flat hierarchies, a results- and value-oriented mentality and a passion for new challenges
- A dynamic and secure working environment in a joint venture of DB E.C.O. Group and Schneider Electric, with the prospect of a long term, diversified professional perspective
- A lot of creative freedom and independent action
- Flexible working hours with mobile working
- Personal togetherness at summer parties, team events, joint sports activities or simply lunch on our beautiful EUREF campus
- Free beverages and fresh organic fruit at the office

## About you:

- Advanced Bachelor's or Master's degree in the fields of industrial engineering/computer science, engineering (construction, energy, transport), business administration, economics, ideally with a focus on the energy industry or students who have already completed an apprenticeship
- Enjoy thinking in new and networked ways about conventional solutions and planning processes in the energy and mobility market or projects in the digitalization of cities and municipalities
- Self-organization, communication and teamwork skills
- High level of commitment and reliability
- Confident handling of MS Office applications
- Very good knowledge of German and English

## Your next step:

You are interested in a diversified job in a young company?

Then we look forward to receiving your application with salary expectations and a possible start date at [bewerbung@inno2grid.com](mailto:bewerbung@inno2grid.com) !

## Why us?

We are a **young team** and enjoy developing and implementation of holistic, customer specific solutions. inno2grid is a joint venture between Deutsche Bahn Engineering & Consulting and Schneider Electric whose development is shaped by its employees.

A position at inno2grid offers a job in an innovative company with a high degree of personal development opportunities, the possibility of self-realization in flat hierarchies and the prospect of a long-term and varied professional perspective. inno2grid relies on personalities who are characterized by entrepreneurial thinking and action, a goal and value-oriented mentality and a passion for new things.

In addition to the outstanding professional qualifications and competence of its employees, inno2grid relies on their above-average initiative and responsibility, teamwork skills and flexibility as well as the willingness and motivation to perform.

Whether at beach volleyball during a break or at a barbecue, it is important to the i2g-Team to spend time together not only in the office, even if it is a particularly beautiful location on the **EUREF campus**.
