

SENIOR CONSULTANT IN THE FIELD OF SMART MOBILITY (F/M/D)

Application details:

Type of position: full time, Berlin

Entry date: as soon as possible

Contact: Thomas Kreher, Head of Consulting

Application documents via mail to: bewerbung@inno2grid.com

Life in urban and rural regions is constantly changing. Structural change is taking place at various levels, and the need for a sustainable mobility and energy supply is growing with it. Our aim is to shape the energy and transportation transition with innovative concepts and solutions. We support our customers from strategy to implementation and operation.

We are looking for an experienced Mobility Consultant to join our team. You will be responsible for the implementation of projects in the field of smart mobility and strategic mobility planning, be adept at working with GIS and have experience in project management. We offer a steep learning curve, a fantastic team and exciting national and international projects.

Would you like to bring your consulting talent and your enjoyment of customer contact to us and make a contribution to the energy and transportation transition? Then we look forward to receiving your application.

Focus activities:

- Advising clients in national and international projects with the aim of sustainable mobility for cities and neighborhoods
- Carrying out analyses for needs-based mobility and charging infrastructure offers
- Dimensioning and locating mobility services and developing innovative solutions for our clients
- For example, you will support a transport utility in the implementation of its Mobility-as-a-Service strategy, use GIS analysis to create an implementation plan for the demand-oriented location of mobility stations in a city or support a project developer in the implementation of a sustainable and car-reduced residential district

Our offer:

- A young, diverse team of ca. 60 employees with flat hierarchies, a goal- and value-oriented mentality and a passion for new things
- A dynamic and secure working environment in a joint venture of DB E.C.O. Group and Schneider Electric, with the prospect of a long term, diversified professional perspective
- A lot of creative freedom and independent action
- Flexible working hours with mobile working
- Personal togetherness at summer parties, team events, joint sports activities or simply lunch on our beautiful EUREF campus
- Benefits such as the Deutschlandticket, JobRad, mobility budget, company pension scheme, subsidised lunch and sports activities, etc.

About you:

- Motivation as a team player to shape sustainable mobility and implement innovative ideas
- Successfully completed university degree (Bachelor's or Master's) in a transportation or geographical field, preferably with a focus on spatial/urban planning, mobility/transport planning, industrial engineering, (sustainability) management or similar
- Professional experience in the above-mentioned areas of responsibility
- Specialist and methodological knowledge in the areas of innovative mobility services, electromobility, operational mobility management
- Strong knowledge and experience in the field of GIS
- High degree of initiative and commitment as well as enjoyment of working in a team
- Business fluent in German and English
- Confident handling of MS Office applications (especially PowerPoint, Excel and Word)

Your next step:

You are interested in a diversified job in a young company?

Then we look forward to receiving your application with salary expectations and a possible start date at bewerbung@inno2grid.com!

Why us?

We are a **young team** and enjoy developing and implementation of holistic, customer specific solutions. inno2grid is a joint venture between Deutsche Bahn Engineering & Consulting and Schneider Electric whose development is shaped by its employees.

A position at inno2grid offers a job in an innovative company with a high degree of personal development opportunities, the possibility of self-realization in flat hierarchies and the prospect of a long-term and varied professional perspective. inno2grid relies on personalities who are characterized by entrepreneurial thinking and action, a goal and value-oriented mentality and a passion for new things.

In addition to the outstanding professional qualifications and competence of its employees, inno2grid relies on their above-average initiative and responsibility, teamwork skills and flexibility as well as the willingness and motivation to perform.

Whether at beach volleyball during a break or at a barbecue, it is important to the i2g-Team to spend time together not only in the office, even if it is a particularly beautiful location on the **EUREF campus**.
