

HUB MANAGER (F/M/D)

Application details:

Type of position: Full-time, Berlin

Entry date: 01.01.2024

Contact: Alexander Agnesens, Team Innovation Hub

Application documents via mail to: bewerbung@inno2grid.com

The Innovation Hub team is responsible for the operation and development of the inno2grid Innovation Hub at the EUREF-Campus Berlin, the place of the future for the connected energy and mobility transition. Through our customized tours with various showcases and the zeemobase - the zero emission energy and mobility base - we offer 4,000 visitors and potential customers a year insights into the solutions and the partner ecosystem that make the EUREF-Campus a place of the future. As a real-life laboratory for the energy and mobility transition, the zeemobase provides the framework for research and innovation projects for and with our shareholders and partners. In the zeemobase showroom, we make products, services and solutions as well as the joint research and innovation projects of inno2grid, our shareholders and partners for the New Energy and Mobility Landscape visible and tangible. This makes the zeemobase a partner and marketing platform for inno2grid and its shareholders, for whose further development we need your support!

Would you like to contribute your organizational strength as well as your marketing and strategic sense to one of the most promising industries of the future and make a contribution to the energy and mobility transition? Then join our team and let's tackle our customers' challenges together!

Focus activities:

- Storytelling around the technical development as well as the implementation of new products in the living lab EUREF-Campus
- Conception and implementation of future showcases for us, our shareholders and partner
- Networking with external and internal stakeholders (customers, delegations, employees, business partners) on the EUREF-Campus Berlin
- Development of a marketing strategy to represent the showrooms at the EUREF-Campus Berlin at external events
- Acquisition and planning of (or participation in) events on the EUREF-Campus Berlin.
- Training of new guides for guided tours at the EUREF-Campus Berlin
- Operational process responsibility for lead management

Our offer:

- A young, diverse team of approx. 70 employees with flat hierarchies, a goal- and value-oriented mentality and a passion for new things
- A dynamic and secure working environment in a joint venture of DB E.C.O. Group and Schneider Electric, with the prospect of a long term, diversified professional perspective
- A lot of creative freedom and independent action
- Flexible working hours with mobile working
- Personal togetherness at summer parties, team events, joint sports activities or simply lunch on our beautiful EUREF campus
- Benefits such as job ticket and JobRad, pool electric vehicle, mobility budget, company pension plan, fresh organic fruit in the office etc..

About you:

- Completed studies, ideally in the fields of communications, economics, industrial engineering or a comparable degree program
- Special interest in the topics of energy and mobility as well as working in an innovative environment and an international team.
- Connected way of thinking to quickly find good solutions even in complex situations
- Calm and customer-friendly communication - even in stressful situations
- Confident appearance and enjoy presenting in front of larger groups
- Structured way of working, initiative, ability to work in a team and organizational talent.
- Very good knowledge of German and English, further language skills are an advantage
- Confident handling of MS Office applications (especially PowerPoint, Excel and Word)
- Initial experience with graphics software (Adobe Creative Suite) for the creation of digital content desirable

Your next step:

You are interested in a diversified job in a young company?

Then we look forward to receiving your application with salary expectations and a possible start date at bewerbung@inno2grid.com!

Why us?

We are a young team and enjoy developing and implementing holistic, customer-specific solutions. inno2grid is a joint venture between Deutsche Bahn Engineering & Consulting and Schneider Electric, whose development is shaped by its employees.

A job at inno2grid offers a workplace in an innovative company with a high degree of personal development opportunities, the possibility of self-realization in flat hierarchies and the prospect of a long-term and varied professional perspective. inno2grid relies on personalities who are characterized by entrepreneurial thinking and action, a goal- and value-oriented mentality and a passion for new things. In addition to the outstanding professional qualifications and expertise of its employees, inno2grid relies on their above-average initiative and responsibility, team spirit and flexibility as well as their willingness to perform and motivation. Whether playing beach volleyball in the break or having a barbecue, it is important to the i2g team to spend time together not only in the office, even if it is a particularly beautiful location on the EUREF campus.
